

River Styx

She passed the pepper before I asked
I am not sure

Had she been staring at me
Was she crazy or just looking for a friend?

Chorus

Paddle down the River Styx
Is it Hell or it Earth

To see another side
I can not decide

Paddle down the River Styx
People want to be on both

To see another side
I can not abide

I didn't know which side
Better to be in Hell

To be on
Or on the Earth

Look to the left and to the right
Do they mean well

No real guides are there
Oh do they mean well?

Chorus

Camouflaged cruelty
Self beatified
He remembers to be nice

From you to me
False souls long died
From time to time

Chorus

A performance piece
Who's that man

When will it end
What he saying

If the Earth has a bond
On both sides

Why do they live
Of that river?

Chorus
